

Evaluation : Chemistry and measurement Lesson

<https://nwarny.com/test/821/>

(You can take a set of these questions and record them on some papers, then distribute them to them at the end of the class to test their understanding of the lesson topic)

<https://docs.google.com/forms/d/e/1FAIpQLSdrszSiRbelWL5cAjO7GU1BxY4GItVDTx5QjQHGHYHUGEBTNA/viewform>

(Students can be evaluated by having them solve a test on the content of the lesson either during the class or immediately after they return from school to ensure that they have received the information or not)
